THE MADRAS LOCAL AUTHORITY LOANS BOARD.

No. 118.—In exercise of the powers conferred by section 4 of the Local Authorities Loans Act,

1914 (IX of 1914), as amended by the Devolution Act, 1920 (XXXVII of 1920), and in supervision of all rules issued on the subject except as regards money borrowed before those rules came into force, the Governor in Council is hereby placed to make the following rules under the said Act:—

1. These rules may be called the Madras Local Authorities Loans Rules.

Interpretation.

2. In these rules—

(1) "the Act" means the Local Authorities Loans Act, 1914 (IX of 1914);

(2) "Government loan" means a loan taken from Government funds;

(3) "loan" means a loan made, taken, or raised under the Act;

(4) "Non-Government loan" means a loan raised, with the sanction of Government, otherwise than from Government funds; and

(5) "term" of a loan means the period elapsing between the date on which the loan is compulsorily made, taken or raised, and the date on which it is completely repaid.

3. A Local Authority shall not borrow money for any of the purposes specified in clauses (i), (ii), (iv) or (v) of subsection (1) of section 3 of the Act unless the work to be carried out is either—

(a) within the local limits of the area subject to the control of the Local Authority, or

(b) for the benefit of the inhabitants within those limits.

4. When a Local Authority desires to obtain a loan, it shall submit an application to the Local Government showing—

(1) the purpose for which the loan is required, and where the loan is required for any of the purposes specified in clauses (i), (ii), (iv) or (v) of subsection (1) of section 3 of the Act, an estimate of the cost of the entire work or each part of it as it is proposed to carry out from loan funds;

(2) the amount which it is proposed to borrow;

(3) the fund or the security of which it is proposed to borrow;

(4) the law under which the said fund is held, created or held;

(5) the date within which the money is to be borrowed, and, where it is proposed to raise a loan in instalments, the amount of each instalment, the date within which the first instalment is to be taken or raised, and the years in which it is intended to take or raise the other instalments;

(6) the rate of interest at which it is proposed to borrow;

(7) the term of years for which the money is to be borrowed, and the method by which it is to be repaid. (If it is proposed to repay the loan by means of a sinking fund, the rate of interest,

at which the improvement of such sinking fund is to be achieved, shall also be stated); and

(8) an account of the financial position of the Local Authority, including a statement of all existing prior charges on its funds.

5. If after such enquiry as may be found necessary the Local Government considers that the money required by the Local Authority ought to be borrowed, they shall cause to be published in the Fort St. George Gazette and in such other manner as they may deem fit within the local limits of the area subject to the control of the Local Authority, a copy of the application and such other particulars as they may think necessary.

6. After the expiry of one month from the date of the last publication of a copy of the application under rule 5 and after calling for any further information which they may require and considering any objections which may be preferred, the Local Government may

(1) reject the application, or

(2) grant or sanction the raising of the loan subject to the following conditions, namely:

(a) the term of the loan shall not ordinarily exceed 20 years, and

(b) the interest payable on the loan shall be at such rate as may be fixed by the Local Government.

Provided that in the case of a non-Government loan exceeding twenty-five lakhs of rupees, the application shall be forwarded for the orders of the Governor-General in Council in regard to the terms including the date of extinction of the loan.

7. Where a Local Authority in its application desires the immediate grant or sanction to the raising of a loan on the ground that funds are urgently needed for any of the purposes specified in clauses (i), (ii), (iv) or (v) of subsection (1) of section 3 of the Act, the Local Government may, at any time after the receipt of the application, if they are satisfied that the loan is urgently needed for any such purpose, notwithstanding anything contained in rules 3 and 4, after such enquiry, as they may think fit to make, grant or sanction the raising of the loan or advance the Governor-General in Council in the case of a non-Government loan exceeding twenty-five lakhs of rupees.

8. (1) In granting or sanctioning a loan, the Local Government may prescribe any further conditions, which shall not be inconsistent with the Act, and with these rules as they may think fit.

(2) In particular and without prejudice to the generality of the provisions contained in sub-rule (1) the following conditions shall be prescribed, namely:—

(a) in the case of every loan, that the Local Government shall determine and the Local Authority shall pay the cost—

(i) of any legislation made and of advertisements published under rule 5,

(ii) of instalments made, and other amounts of interest taken under rule 9, and

(c) of any other proceedings taken by order of the Governor-General in Council or the Local Government under these rules;

(b) in the case of every loan that the Local Authority shall forward to the Accountant-General, Madras, and to the Local Government, any information which they may require regarding the funds and regarding the expenditure of the loan.

(c) in the case of a Government loan, that the Local Authority, if they consider that the Local Authority has failed to comply with any of the conditions provided in respect of the loan or with any of the requirements of these rules, may at any time order that no further payments shall be made on account of such loan, and that any amount advanced with interest thereon shall be repaid immediately; and

(d) in the case of a non-Government loan, that the Local Authority shall not, without the previous approval of the Authority which sanctioned the loan, vary the date within which the repaying of the loan, or of the first instalment of it, has been sanctioned; and that, if the loan is raised by instalments, the Local Authority shall report, for the previous approval of the sanctioning Authority, the date within which each further instalment is to be repaid.

9. The Local Government shall make such provision as they may deem necessary—

(a) for ascertaining and ensuring that the money borrowed is duly applied to the purpose for which it has been borrowed, and that the unexpended balance of the loan is not employed otherwise than in accordance with these rules; and

(b) where the loan is taken for any of the purposes specified in clauses (a), (b), (c) or (d) of subsection (1) of section 4 of the Act for the proper supervision of the work to be carried out, provided that every such work and the accounts connected therewith shall be open at all times to the inspection of—

(1) the Superintending or Executive Engineer in whose circle or division, as the case may be, the work is situated, and

(2) of any person who may be authorized to inspect the accounts of the Local Authority, and

(3) of any other person specially authorized by the Local Government in this behalf.

10. When the Local Government decide to sanction any funds under section 2 of this Act the following procedure shall be observed, namely:—

(a) The Local Government shall issue a notice to the Local Authority prohibiting the collection or management of such funds by the Local Authority, and vesting the administration thereof in such officer as the Local Government may appoint. The Local Government shall cause such notice to be published in the local official gazette, and in such other manner as they may deem fit within the local limits of the area subject to the control of the Local Authority.

(b) The officer appointed by the Local Government under section 2 of the Act shall pay the moneys collected or received under such sanction to the lender, or, in the case of a Government loan, to the Government Treasury.

(c) The said officer shall prepare the accounts of moneys so collected, and of the cost of collection, in such form as the Local Government may, from time to time, direct. He shall deliver a copy of the accounts to the Local Authority, and shall cause a copy to be published in the Fort St. George Gazette.

11. If, on the completion of the work or the clearing of the accounts of the transaction for which the Local Authority has borrowed money, the Local Government are satisfied

that the whole of the money has not been spent on the purpose for which it was borrowed, they shall proceed as follows, namely:—

(a) In the case of a Government loan.—The Local Government shall direct that the unexpended balance shall be forthwith repaid to Government, and the principal of the debt incurred by an equivalent amount. The Local Government may direct such variation as they may consider necessary on this account in the instructions issued for the liquidation of the loan.

(b) In the case of a non-Government loan:—

(i) If the Local Government themselves sanctioned the raising of the loan, or if the unexpended balance of the loan does not exceed the amount which the Local Government are empowered to sanction as an original loan, they may direct that the unexpended balance shall be utilized either in the reduction in any way of the debt of the Local Authority, or in carrying out any works which that Authority is legally authorized to carry out.

(ii) In cases not falling under clause (i) the Local Government may direct that the unexpended balance shall be utilized in the reduction in any way of the debt of the Local Authority, or, with the previous sanction of the Government-General in Council, that the unexpended balance shall be utilized in the carrying out of any works which the Local Authority is legally authorized to carry out.

12. The following provisions shall apply to interest on Government loans, namely:—

(1) Interest shall be charged, at the rate agreed upon, yearly or half-yearly, on the Local Government may determine, and shall be repaid and paid on each instalment from the date on which such instalment is received by the Local Authority.

(2) The Local Government may, if they think fit, direct that compound interest at a rate not less than 10 per cent per annum shall be paid upon all overdue instalments of interest, or of principal and interest.

13. With the previous consent of the Local Government, the Local Authority may, at any time, repay the whole or any part of a Government loan, in advance of the period fixed by the conditions of the loan.

14. The accounts of every Government loan shall be kept by the Accountant-General, Madras.

15. In the case of a non-Government loan, if the loan is not repayable by annuities or annual drawings, the Local Authority

shall establish a sinking fund, in the following manner, namely:—

(1) It shall pay out of its income, yearly or half-yearly, into such fund, a sum which, accumulating at such rate of compound interest as the authority sanctioning the loan may fix, will be sufficient to secure the liquidation of the loan within the term fixed for its repayment;

(2) It shall make the first of such payments within one year from the date of taking or raising the loan, unless the sanctioning authority otherwise directs; and

(3) It shall submit the accounts of its sinking fund annually to the Accountant-General, Madras, and shall at once make good from its income any amount by which it may certify that the fund is exhausted, unless the Local Government or the Governor-General in Council in the case of a self-Government loan exceeding twenty-five lakhs of rupees directs a gradual replenishment.

16 Notwithstanding anything contained in the foregoing rules, it shall be permissible, with the previous sanction of the Local Government or of the Governor-General in Council, as the case may be, for a District Board which desires to construct a railway, partly from the proceeds of a loan levied for that purpose and partly from borrowed funds, to borrow money by means of debentures repayable at the option of such District Board.

7. Officers will ordinarily be employed throughout their service on the Railway to which they may be posted on first appointment and will have no claim, as a matter of right, to transfer to some other Railway, but the Government of India reserves the right to transfer such officers, in the interests of service, to any other Railway or post in or out of India. Officers will be liable to serve in the State Department of the State Railways if and when called upon to do so.

(On an average of the five years ending 1937-38, the cane under experiment in the Eastern Province has represented 8.5 per cent of the total area under experiment in India.)

The area planted with experiment cane to the end of September 1939 is estimated at 96,548 acres as compared with 82,100 acres on the corresponding date of last year. There has been an increase of about 17 per cent.

The increase in area sown is most marked and is due mainly to the rise in the price of jaggery at planting time.

It is the Ganges, Karnal, Modern, and the West Coast, normal yields are expected. The crop has been affected by drought in the remaining districts but is meeting with the normal rain.

If the season is normal on the remaining portion of the growing period, the yield is estimated at 370,870 tons of jaggery against 370,480 tons on the corresponding date of last year.

MONTHLY CROP OF 1910-11—SECOND
QUARTER REPORT.

[In an average of the five years ending 1910-11, the area under grain in the Madras Presidency has represented 22·8 per cent of the total area under grain in India.]

The area sown with grain up to the end of September 1910 is estimated at 419,500 acres as compared with 417,500 acres estimated at the corresponding date of last year. There has been a slight increase of 2,000 acres.

There has been a large decrease of 25,000 acres in the Deccan due to insufficient rains; but there

has been a corresponding increase in the Cisterns and the Central districts where the sowing season was favourable.

2. The early crop in the Cisterns has been almost harvested. In Vengalooram, Bellary (East and West), and Ganjam, it suffered from drought and the yield was below normal and in Ganjam and Kistna, the yield was normal.

The main crop that awaits sowing in the Cisterns has been affected by drought to some extent in lower districts except the West Coast.

3. Figures by districts are appended.

Bills to be introduced in the Council of the Governor of Fort St. George for the purpose of making Laws and Regulations.

Under rule 90 of the Madras Legislative Council Rules, the following Bill, together with the Statement of Objects and Reasons, is published for general information:—

BILL No. 18 OF 1930.

A Bill to amend the Madras District Municipalities Act, 1920, and the Madras Town-Planning Act, 1920.

Whereas in order to remove certain restrictions imposed on municipalities in regard to town-planning and improving gasworks, it is expedient to amend the Madras District Municipalities Act (V of 1920) and the Madras Town-Planning Act (VII of 1920); It is hereby enacted as follows:—

1. This Act may be called the Madras District Municipalities and the Madras Town-Planning Amendment Act,

2. To clause (2) of section 170 of the Madras District Municipalities Act (V of 1920) the following words shall be added, after converting the full stop into a comma:—

"or in which it is in the opinion of the council expedient to lay out lanes, by-paths or foot-paths less than 20 feet in width provisionally until the Municipal Council is able to carry out the schemes and plans of streets as aforesaid."

3. The following section shall be added to Chapter III of the Madras Town-Planning Act (VII of 1920):—

"19-A. Nothing in this chapter shall apply to any schemes or plans of lanes, by-paths or foot-paths less than 20 feet in width prepared by a Municipal Council, which may be carried out provisionally under section 170 of the District Municipalities Act, 1920."

4. For section 8 of the Madras Town-Planning Act (VII of 1920) the following provision shall be substituted:—

"8. The council of any municipality may prepare, print and submit to the Local Government, for their sanction, a scheme or schemes as respects all land within the municipality or in its vicinity in respect of which a town-planning scheme may be made under this Act."

5. The following paragraph shall be added to section 13 of the Town-Planning Act (VII of 1920):—

"The procedure required for a scheme or schemes prepared under section 8 shall be applied to a scheme or schemes covered by this section."

STATEMENT OF OBJECTS AND REASONS.

The main object of this Amending Bill is to remove certain unnecessary restrictions as the powers of municipalities conforming with town-planning under both the Madras District Municipalities Act (V of 1920) and the Madras Town-Planning Act (VII of 1920).

Section 170 of the Madras District Municipalities Act (V of 1920) enables a Municipal Council to lay out streets not less than 40 feet or 20 feet in width (in areas covered by lanes) except in case of impossibility of widening existing streets. But there are cases in which provisional schemes of new lanes and foot-paths have to be carried out in the interests of the people until larger schemes can be executed such as are held up on account of want of funds or delay in preparing and carrying out a large

comprehensive town-planning schemes whether under section 17 of Madras District Municipalities Act (V of 1920) or Chapter III of the Madras Town-Planning Act (VII of 1920). It is therefore desirable to exclude such provisional schemes from the usual restrictions laid down under either of the Acts.

The original section 5 of Act VII of 1920 provides that every municipality containing on 1st January 1925 a population of not less than 40,000 shall, not later than two years after that date, prepare and submit to Government Town-Planning Scheme, etc. That period having now expired and most municipalities having failed to prepare any or all required town-planning schemes within that period, it is expedient that they should not be barred from doing this duty in future, so that town-planning in the light of experience they or neighbouring municipalities have had in carrying out schemes devised by themselves or devised upon by Government. The restriction as to population appears unnecessary as municipalities with a population less than 10,000 may be treated and ought to be encouraged to erect town-planning schemes which after all have to be drawn up in detail and carried out under the supervision of the Director of Town-planning.

The schemes prepared by direction of Government under section 12 of the Town-Planning Act, ought I think, to be subjected to the same procedure as schemes prepared on their own initiative under section 8 so that the public are taken into equal confidence which is not done at present.

2nd July 1929.

J. A. SALDANHA.

12. Nothing in this Act shall be held to apply to any game of mere skill wherever played.

STATEMENT OF OBJECTS AND REASONS.

For some years past there have sprung up in the city of Madras a large number of betting shops for the purpose of facilitating betting in connection with races. These betting shops are more or less in the nature of betting shops, and it has come to light that the deceit practised by them on the general public is extensive. Sometimes these are styled 'clubs' and the betting is confined to members only, and in such cases there is no provision of law at present under which action can be taken against them. The only power is to take betting shops which are within under the Police Act, which deal only with common gaming-houses. The Government of Bombay and Bengal have already introduced legislation to suppress betting shops, and they are Bombay Act V of 1922 and Bengal Public Gaming Act of 1923. Legislation on similar lines has often been suggested in this Presidency, but for reasons which are not quite clear, the Government have not been able to introduce legislation till now. Some time ago the late Commissioner of Police made certain suggestions for the amendment of the Madras City Police Act on the lines of existing legislation in Bombay and Bengal, and his suggestions are contained in G.O. No. 19, Judicial, dated 15th March 1927. Those suggestions applied only to the city of Madras, but it is desirable that any law which is enacted on the subject is made applicable to the whole of the Presidency. The present Bill has been drafted on the lines of the Bombay Act of 1922 and is applicable to the whole of the Madras Presidency.

24 February 1928.

53. The provisions of Chapters II, III and IV of this Act shall apply also to such non-marumakkattayam males as have married or may marry marumakkattayam females though such males may have a personal law of their own in regard to matters dealt with in these chapters.

STATEMENT OF OBJECTS AND REASONS.

The communities governed by the Marumakkattayam and Aiyavattam law have been asking for the legal recognition of the customary marital union prevailing among them. The Malabar Marriage Act of 1906 was passed in response to this demand. But that legislation is a very imperfect measure and has failed to meet the requirements of the people concerned. It does not legalize the Sambandham, but provides for the optional registration of marital unions to invest them with validity. The machinery set up is against the sentiments and genius of the race, and only a few marriages have been registered under the Act.

All the same the desire for obtaining legal sanction for the Sambandham has been steadily growing. In every other respect the community has advanced by leaps and bounds. Progresses there have gained ground every where. The social system alone remains unchanged. The refusal of the Court to regard the Sambandham as a legal marriage has obstructed one of the most enlightened changes in this country as an inferior race and prevented it from growing to its full natural stature. The law is no longer the centre and focus of marumakkattayam life. Men have outgrown the system imposed upon them and the social stream is flowing along new natural channels. The main object of this Bill is to adjust the social system to the changing needs of the society.

The Bill seeks to invest the Sambandham with all the incidents of a legal marriage. This may look, in theory, like a great departure from the existing state of things; but, it is in truth, no more than giving a formal legal sanction to what, in practice, is regarded as a sacred and life-long union.

Apart from marriage and inheritance the need for a law providing for partition has long been felt. The tarwad has expanded beyond all natural limits; so much so that it is often difficult to trace the exact relationship of the members comprising them. The consequence has been various litigation. There is hardly a family of substance in Malabar that is not in the courts. Suits for maintenance instituted by the junior members are a common feature of Marumakkathayam and Aliyasantana life. There are instances of suits committed on account of family quarrels. The Bill endeavours to remedy this evil by providing for partition in rather a conservative fashion. It does not create the right to individual partition, but only to tarwad parties, partly as a concession to orthodox opinion, and partly by way of abundant caution.

It may be pointed out that the adjoining States of Cochin and Travancore have passed regulations on lines exactly similar to those adopted in this Bill. As marriage between British subjects and the subjects of those States are common, everyday occurrences it has become imperative to bring Malabar also into line with them.

The important features of the Bill are—

- (1) The recognition of the Marumakkathayam as a legal marriage; the marriage of a Marumakkathayam woman with a man of higher caste with whom marriage is permitted by custom being equally valid and binding.
- (2) The right of free divorce.
- (3) The enforcement of monogamy in all cases.
- (4) The right of wife and children to maintenance from the husband or father as the case may be.
- (5) The right of wife and children to inherit moiety of the undivided or self-acquired of husband or father, the other moiety going to the tarwad (not the tarwad).
- (6) The right of tarwad partition.
- (7) The accountability of the karnavan and the restriction of his powers.
- (8) Provision for the registration of tarwad as imperishable and also for the constitution of such registration.
